

## Canadian Wildlife Museum

# An amazing educational experience that the entire family can enjoy

The Canadian Wildlife Museum is located just minutes north of the city of Vernon B.C., just off Highway 97. The vision for the Canadian Wildlife Museum started in October 1993. Master Taxidermist Ken Schultz worked on this project for 28 years. Some of the scenes in the museum took as much as six months full time labor to create and complete, for just one scene alone. Most of the larger mammal scenes took from one to two months labor to complete. The amazing artwork is not just in the mounted animals but also in the natural, detailed bases that the scenes are situated on. The setting is a rustic cedar wood atmosphere with natural bird and nature environmental background sounds. The excellence in taxidermy workmanship shows itself in the hundreds of outstanding wildlife displays that you will view in the museum. The museum is two floors of wildlife displays. There are over 350 mounted specimens including over 120 birds of prey and over 115 different species of Canadian wildlife. There are 45 viewing stations and

160 written descriptions for the over 220 different scenes of wildlife. There is also a large butterfly and moth collection. Nowhere in Canada will you find a more outstanding selection of mounted Canadian birds and animals. The Canadian Wildlife Museum offers an outstanding arrangement of Wildlife Displays, most of which, the average person would never see in the wild. There is also a Gift Shop which is well stocked with many very unique wildlife and nature related novelties, souvenirs, clothing, rocks, jewelry, gifts, and much more. The Canadian Wildlife Museum has been a lifelong passion to build and create. 28 years of hard work, dedicated enthusiasm, patience, and finally a place where nature scenes come alive, to be shared with all who have an interest in the beauty of wildlife and nature. The scenes in the museum are designed to teach visitors about wildlife and allow a close up encounter with Canadian birds and animals that few people would be able to approach in the wild.
